Treatments

Therapeutic Customised Package

Duration: 60 / 90 minutes

Components: Combination of two or more Ayurvedic treatments following a comprehensive consultation with the Ayurvedic Doctor.

This package is available between three and fourteen days and must be followed under the guidance of the doctor.

Abhyanga Classical

Duration: 60 / 90 minutes

Components: Full body massage with medicated oil

Abhyanga is an Ayurvedic massage, where medicated oils are applied over the body with customised pressure in seven positions.

Abhyangamardanam

Duration: 60 / 90 minutes

Components: Full body massage with medicated oil

In this massage, muscles are targeted to tone and remove fatigue. Movements are done with customised medium to deep pressure.

Marmaabhyanga

Duration: 60 / 90 minutes

Components: Full body massage with medicated oil

Marma are the vital points on the body that has prana energy. This massage improves lymph flow and stimulates the immune system. It is deeply relaxing, detoxifying, strengthening and revitalises both mind and body.

Shirodhara

Duration: 30 / 60 minutes

A flow of warm medicated oil, milk, butter milk or decoction is poured continuously on the forehead. This process stimulates the part of the brain known as the pineal gland, which produces serotonin and melatonin. These hormones play an important role in emotional balance reducing stress and aiding in restful sleep.

Udwarthanam

Duration: 60 / 90 minutes

A warm herbal powder massage, which can either be a general scrub or part of a weight loss programme.

Kizhi

Duration: 60 / 90 minutes

This massage is conducted with a bolus (poultice) of medicated heated powder, fresh leaves and herbs, which are dipped in oil and warmed to body temperature. An excellent remedy for aches and pains in the body.

Shiroabhyanga

Duration: 30 / 60 minutes

This Ayurvedic head massage uses light to medium, circular strokes, using special medicated oil applied to the scalp. Head massages are one of the most important techniques in Ayurveda, as they stimulate nerve centres, and relieve stress and tension throughout the body.

Padaabhyanga

Duration: 30 / 60 minutes

This foot massage aims to heal the vital body points known as marma, which include soothing the nerves. It also helps to activate the immune system, and can prevent the early onset of any kind of physical and mental degeneration.

Naturopathic Medicine

Consultations

Comprehensive Consultation

Duration: 60 / 90 minutes

Components: Verbal consultation and treatment plan

An in-depth consultation with our naturopathic doctor, covering every aspect of your health from mental and physical to spiritual and emotional. At the end of the consultation, you will receive a customised treatment plan including the appropriate lifestyle, supplement and regenerative therapy recommendations.

Follow-Up Consultation

Duration: 30 / 60 minutes

Components: Verbal consultation

Following up from a treatment, this consultation will discuss your treatment progress and assess whether further treatment is needed.

Telemedicine consultations are also available. Please contact the Soneva Soul team for more information.

Regenerative Treatments

Major Autohemotherapy

Duration: 45 minutes

Components: A small amount of blood is taken, infused with ozone and reinjected into the body

This powerful therapy is used to address and heal many chronic health conditions. A small amount of blood is taken, infused with ozone and reinjected into the body, leaving you feeling energised, with increased mental clarity.

Biophotonic Blood Therapy

Duration: 45 / 60 minutes

Components: A small amount of blood is taken, infused with ozone and reinjected into the body, with the use of ultraviolet light

This powerful therapy is used to address and heal many chronic health conditions, stimulating cytokines and activating the mitochondria in each cell to strengthen immune systems. A small amount of blood is taken, infused with ozone, exposed to ultraviolet light, and reinjected into the body, leaving you feeling energised, with increased mental clarity.

Hyperbaric Oxygen Therapy

Duration: 60 / 90 minutes

Components: Increases the amount of O₂ in the body while under pressure

This treatment takes place in a pressurised environment as you breathe 100 percent oxygen. During the process, the tissues are flooded with beneficial oxygen, promoting cellular tissue healing, regeneration and detoxification.

Whole Body Hyperthermia

Duration: 180 minutes

Components: Controlled heat application

Whole Body Hyperthermia involves elevating the body's temperature in a controlled setting to induce therapeutic effects. By carefully applying heat to the entire body, this method stimulates circulation, enhances immune responses, and aids in detoxification, fostering comprehensive healing at a cellular level.

Medicinal Herb Bath (In Villa)

Duration: 60 minutes

Components: Herbal bath

Immerse yourself into a ritualistic herbal bath, layered with both fresh and dry elements, including a variety of medicinal herbs and flowers, essential oils, plant milks, and Epsom salts. This treatment is designed to boost mood, calm the mind, soothe sore muscles and joints, open pores, soften skin, and promote a more restful sleep.

Flotation Pod Therapy

Duration: 30 / 60 minutes

Components: Sensory deprivation

This therapy involves a pool of water rich in magnesium salt. The concentration of salt allows you to float freely, reducing stress and anxiety, relaxing muscles, decreasing pain and improving sleep.

BEMER Therapy

Duration: 30 minutes

Components: Experience a variety of benefits whilst laying on a PEF device

BEMER can stimulate healthy muscles in order to improve and facilitate muscle performance and temporarily improve local circulation in healthy muscles. BEMER can enhance nutrient and oxygen delivery; improve blood flow; help with muscle conditioning; and physical performance, fitness and muscular strength; endurance and energy; vitality and wellbeing by improving sleep and reducing stress levels.

BodyStream

Duration: 30 / 60 minutes

Components: Relaxation whilst wearing CO2 suit

The BodyStream system is designed to help bathe the entire body (up to the neck) in carbon dioxide gas. This system offers a wide range of benefits including an increase in energy, reduction in stress and anxiety, reduction in cellulite, increased metabolic rate, reduction in body pain, increased circulation, rapid healing of wounds and skin sensitivities, aiding in better sleep, weight loss and enhanced performance.

Regenerative Injections

Prolotherapy

Duration: 30 minutes

Components: Injection

Prolotherapy is an injection-based treatment for chronic musculoskeletal pain. A relatively small volume of an irritant or other sterile solution is injected at specific sites on and near painful ligaments and tendons. This draws immune cells and blood flow to the region, flushing out toxins, bringing in new nutrients and healing the tissues.

Trigger Point Injections

Duration: 30 minutes

Components: Injection

When a muscle becomes tight, torn or bruised, the point of origin for the injury is known as a trigger point, and can cause headaches, migraines and other bodily pain. Treating the pain at the trigger point is highly effective, helping the muscle relax and reducing inflammation. After a trigger point injection, blood flow to the area improves, flushing toxins, lactic acid and debris from the area, and allows nourishing and oxygenated fresh blood to perfuse.

Prolozone Injections

Duration: 30 minutes

Components: Injection

Prolozone combines the principles of neural therapy, Prolotherapy and ozone therapy, injecting a combination of procaine, anti-inflammatory medications, homeopathics, vitamins, minerals, proliferatives and ozone/oxygen gas into degenerated or injured joints and painful areas. Prolozone injection therapy effectively treats arthritic joints, spinal and joint pain, trigger points and a number of other ailments.

Platelet-Rich Plasma (PRP) Injections

Duration: 50 minutes

Components: Injection using treated blood

This treatment takes a small sample of your blood, which is placed in a centrifuge to create platelet-rich plasma. When injected into a target area, this can trigger tissue regeneration and stimulate the healing process, speeding up the recovery time for injuries and decreasing pain.

Aesthetic Treatments

Microneedling with Hyaluronic Acid

Duration: 45 minutes

Components: Skin microneedling

This non-invasive procedure uses tiny needles to create micro channels in the skin. This activates the body's natural immunity response, sending blood and growth factors to the area, increasing collagen production, and therefore reducing fine lines and wrinkles and tightening skin. This treatment is effective at reducing of acne scarring, sun damage and stretch marks.

Microneedling with PRP

Duration: 75 minutes

Components: Skin microneedling with PRP

Combining microneedling with platelet-rich plasma introduces growth hormone and growth factors to significantly increase the rate of tissue regeneration. PRP also helps to speed up the healing process while stimulating the skin to repair and renew itself faster, increasing the skin's elasticity, improving signs of ageing and addressing sun damage.

Add Ons: Intradermal Injection for 15 minutes / Ozone Injections for 15 minutes

Hair Restoration with PRP

Duration: 60 minutes

Components: Intradermal injections with PRP

A non-surgical procedure, PRP is effective in treating thinning hair and slowing or stopping the progression of hair loss. The treatment can tackle both male and female pattern baldness and alopecia as it encourages the growth of existing hair follicles, making your hair appear fuller and healthier without resorting to surgery.

Lip Enhancement

Duration: 30 minutes

Components: Nano needling and injections

Microneedling with PRP is used to provide a gentle exfoliation, while reducing lip lines and Fordyce spots. Injections can also be used to stimulate collagen leaving lips looking plump and hydrated.

Localised Fat Reduction

Duration: 60 minutes

Components: Subcutaneous injection

Medical ozone can be used to reduce localised pockets of fatty tissue, including the chin, abdomen, flanks, thighs, and upper arms. This treatment is also effective for reducing cellulite.

Treatments

Acupuncture

Duration: 45 minutes

Components: Insertion of fine needles into strategic points of the body

From tension headaches and chronic lower back pain to allergies, digestive issues and stress and anxiety, a customised treatment will be tailored to your individual needs. Each acupuncture treatment activates the body's innate healing capabilities to restore optimal function to the body. While many find relief after a single session, a series of treatments is often recommended to achieve optimal results and sustained relief.

Combined Acupuncture and Chiropractic Treatment

Duration: 60 minutes

Components: Chiropractic evaluation and insertion of fine needles into pressure points

This integrative approach magnifies the healing benefits of both modalities, targeting a wide range of health issues from tension headaches and chronic lower back pain to osteoarthritis, allergies and digestive issues. This session commences with a comprehensive chiropractic evaluation and adjustment to alleviate pain and muscle tension and is seamlessly followed by a personalised acupuncture treatment to target specific health concerns or enhance overall wellness.

Frequency Specific Microcurrent (FSM)

Duration: 30 minutes

Components: A non-invasive, pain-free technique utilising low-level electrical currents of varying frequencies

With hundreds of frequencies to choose from, FSM exerts a calming influence on the mind and nervous system, offering substantial relief for painful nerve conditions such as shingles, peripheral neuropathy and sciatica. FSM also helps manage chronic conditions such as chronic fatigue, anxiety, PTSD, irritable bowel syndrome, chronic tendonitis and more. When combined with acupuncture or chiropractic treatments, FSM accelerates the healing process and enhances overall results.

Auricular Acupuncture

Duration: 30 minutes

Components: Application of needles, magnets, tiny seeds or crystals, treating the outer ear

A specialised practice focusing on the rich network of acupuncture points on the ear. This unique approach offers a range of benefits in managing anxiety, stress, depression, pain relief, post-traumatic stress disorder, internal organ balance and much more. This treatment is well-suited for children and anyone who feels nervous about having a traditional acupuncture treatment.

Facial Rejuvenation with Acupuncture

Duration: 60 minutes

Components: Insertion of fine needles into the facial muscles

Fine needles are expertly inserted into facial muscles, fine lines and wrinkles, to improve facial muscle tone, boost collagen production and enhance circulation and elasticity. The outcome is a more youthful, radiant complexion with a refreshed and plump appearance. Each session is complemented by a soothing jade roller massage and state-of-the-art Celluma therapy to amplify the rejuvenating effects.

Electro-Acupuncture

Duration: 45 minutes

Components: Electrodes of microcurrent applied to specific acupuncture points

An advanced technique that amplifies traditional acupuncture's effects. A gentle electrical current invigorates acupuncture points to minimise pain, calm nerves, boost circulation and reduce swelling. Electro-acupuncture is particularly advantageous for acute and chronic sports injuries, effectively addressing issues affecting joints and tendons.

Cupping

Duration: 30 minutes

Components: Application of cupping tools on strategic points and meridian pathways of the body

Traditional Chinese cupping is widely used to treat pain and musculoskeletal injuries, relax muscles, enhance detoxification, stimulate the immune system and relieve inflammation. Negative pressure is created in the cup to encourage blood flow and increase circulation. Benefits can often be felt immediately during and after cupping. Due to the vacuum effect of the cups, marks may appear on the skin which typically heal within two to five days.

Chiropractic Care

The initial visit will include a 30-minute consultation to ensure safety and efficacy of the treatment. The consultation is priced at USD 150++ and is in addition to treatment costs.

Head-to-Toe Chiropractic Alignment

Duration: 30 minutes

Components: A comprehensive evaluation and full body adjustment

A full evaluation and full body adjustment that is safe for all ages, including babies and pregnant women. Ideal for acute pain, muscle strains, sports injuries, tech neck, postural correction, and stress. This session realigns your spine and all extremities, offering quick relief and rejuvenation

Serenity Head and Neck Treatment

Duration: 30 minutes

Components: Targetted adjustments to release neck tension

Utilising a combination of targetted soft tissue work and gentle neck adjustments, this specialised treatment dives deep to get to the root of the problem. Experience relief from tension headaches, migraines, TMJ, vertigo, neck pain, and chronic upper back aches from releasing specific muscular, ligament, and joint tension in the head, neck, and upper back

Lower Back Pain Relief

Duration: 30 minutes

Components: Targetted lower back adjustments for optimal pain relief

This series of three to six sessions is a healing journey specially designed to uncover the root cause of your chronic low-back pain. Each session builds on the improvements from prior treatments. Restore optimal joint movement, release chronic muscle imbalances and finally experience lasting relief.
